MOBILE FIELD KITCHEN (DEFKITCH)

DEFKITCH (K) -2012 seeks to solve environmental concerns of eliminating use of firewood and environmental degradation.

WHY DEFKITCH

- a. Consumes 1 litre/burner/hr of diesel.
- b. Has a capacity to cook for 300 people.
- c. Manufactured using locally available raw materials.
- d. Eliminate use of firewood.
- e. Higher heat energy - Calorific values of diesel compared to firewood.
- f. Does not expose the cooks to direct heat and flue gases characterized by firewood.
- g. The DEFKITCH burns a variety of fuels e.g diesel, kerosene and used oil.
- h. The DEFKITCH is suitable for learning institutions, hospitals, hotels, community functions.
- I. Waste heat recovery - Incorporation of hot water tank in the chimney assembly.
